

## ISIC 2023 – poster guidelines

Congratulations on being accepted for a poster presentation at the **22nd International Symposium on Industrial Crystallization (ISIC)**.

You must be registered in order for your poster to appear in the final programme.

Posters should be A0 portrait (118.9cm high x 84.1cm wide). Presenters must print their own poster beforehand and bring to the venue.

If you would like to print your poster locally in Glasgow and collect it when you arrive, we recommend contacting Merchant City Print, which is a few minutes walk from the TIC - <https://merchantcityprint.com/>

We recommend emailing them in advance to arrange printing and payment. Please note, this is not a service provided by the organisers and should be arranged independently with a printing company.

Please see the email sent to you for your poster number (beginning with P). Posters will be divided into one of two poster sessions – one on Wednesday 6<sup>th</sup> September and one on Thursday 7<sup>th</sup> September.

Poster boards will be numbered, so you should look for the board with your own number. Posters can be fixed to the boards between 08:00 and 10:00 on the day of your poster session.

Boards and Velcro for attaching will be provided.

Presenters are expected to be in attendance by their poster at the dedicated poster sessions after lunchtime.

There are several poster prizes of which the winners will be announced towards the end of the conference.

All posters must be removed from the boards by 18:00 on the day of your poster session. Posters not removed by this time will be removed and recycled.

### **Suggestions for a successful poster presentation:**

- Aim to present the key points of your study rather than all the details. Use your poster to gain the interest of the audience (who are not all experts in your field) and to guide the discussion.
- Make sure that your poster is readable at a distance of at least 1 metre – we recommend a final printed minimum font size of 24 to 28 point. Ensure font on graphs and figures are readable too (at least 18 or 20 point font).
- Make sure the poster has your e-mail address on it so people can contact you. A photo of yourself on the poster is helpful if someone is trying to locate you to discuss your poster.

If you have any questions regarding your poster, please email [isic2023@abbeyuk.com](mailto:isic2023@abbeyuk.com)
